

Master 11GS

Silver Mirror Polyester Film

Thickness & Weight

119µm – 163 g/m2

Roll Widths & Lengths

1270mm-30m

Recommended conditions

Printroom 15°C - 30°C, 30% - 65% RH

For use -40°C - 80°C, 10% - 90% RH

For storage 10°C - 20°C, 20% - 50% RH

Shelf Life 24 months after delivery
(under recommended
storage conditions)

Compatibility

Mid Solvent

Eco Solvent

Latex

UV

Characteristics

- High gloss coating for maximum mirror finish
- Clear antistatic back-coat avoids attracting dust and slipping in the printer
- Water resistant
- Both sides printable with UV-curable inks

Applications

- Roll-up
- Metallic point of sale displays
- Metallic print proofing

Post Printing Information for Latex & Solvent Inks:

As with all filmic media, this product must be allowed to "Gas-out" after printing. This can be achieved by leaving the prints face up, ideally for 24 hours, to set and harden the unique scratch resistant properties. If unable to do this e.g. with a long print run, after printing the roll stand it vertically and loosely unwind as much as possible, to allow air in and gases out.
